

## The Pines Arboretum Walking Path

The Pines at Davidson was approved in October 2022 as an Accredited Arboretum by ArbNet, the only international program of accreditation specific to arboreta. ArbNet has accredited 560 arboreta globally in 39 countries. The Arboretum accreditation program is designed to recognize standards of excellence in tree focused gardens; foster professionalism of arboreta worldwide; enable conservation, collections, and some scientific collaborations; and advance the planting, study and conservation of trees. In accordance with the requirements to be an arboretum, The Pines' collection is labeled, including scientific names, and the public has access to the campus, especially for Arbor Day observances. The inspiration for The Pines campus to be recognized as an arboretum came from the residents' Pines Nature Organization (PNO), who worked with Pines staff to steer the process from an idea to reality. The Pines is the only Continuing Care Retirement Community (CCRC) in North Carolina accredited as an Arboretum. It will have opportunities for collaboration with other arboreta and is located in the Town of Davidson, which along with other environmental and sustainability programs is a community strongly supportive of increasing the local tree canopy through TreesDavidson and employs a town arborist. The residents of The Pines are proud to be living in an Arboretum.
